

**WELCOME TO
GOLDEN
SHADE
FACTORY**

Welcome to **GOLDEN SHADE**

Golden Shade Factory has been set up in the year of 2002 with a comprehensive variety of commercial grade tents products to meet the demand of today's marketplace. We take pride in the quality workmanship that goes into each and every tent. All our tent products are very stylish, heavy duty and durable. The frame material used is made of anodized steel providing a much durable and sturdy frame which can resist high wind without getting bent easily.

The materials are available with high grades and durable fabrics, which will substantially benefit for a longer life.

Golden shade is not only improving the operations, but also focuses on the improvement of working environment and modernization of factory and manufacturing equipment.

Golden shade derives its energy from the Technical Approvals, latest equipment with newest technology, skilled employees and group of very satisfied customers.

Our sales department provides imported high quality shade's fabrics and accessories.

We are providing miscellaneous services also for our customers like hole punching, bending, plasma cutting using computerized machinery at reasonable rate.

Our mission is to provide better products and services to our esteemed customers.

Our Philosophy

Focus mainly on the activities of those who want to foster our culture and heritage.

Our Vision

Our proactive management of our activities and our products are innovative leaders; this will be transparency in dealings with clients.

Our Mission

Providing the high standards of our customers, employees and the continued support of the fellowship are to ensure employment.

**TO IDENTIFY
PERFECTION & QUALITY**

OUR PRODUCTS

All kind of shade & Hunger.

(For Car parking, House, School, Hospital, Playground, Party Tent etc...) Our shades are durable and can withstand higher weather conditions. We use renowned brands as the roofing materials for our shades. Steel structures are designed in accordance to the local climate conditions.

Fixed frame Tents (Traditional)

A Traditional tent is combination of fixed steel frames, fabrics and decorative items.

Decorative items:- Decorative interior fabric lining, Carpets, Traditional sitting arrangement (Majilis) Doors/ Windows, Lights, Air- conditions and Fire places.

Our tents are of high quality materials, which withstand rough weather conditions.

Advantages of Tensile Fabric structures:

Tensile Fabric Structures (PVC, PTFE HDPE and more Fabric Types)..A structure built with the combination of tensile membrane (fabric) & supporting structure/ frame using an architectural clamping system is a tensile structure.

Flexible Design and Forms.

Outstanding Translucency.

Shortened Construction Schedules.

Long Span Structures.

Tarpaulin.

For Covering Transportation, Truck, Storage area etc.
